Profile summary

Motivated and detail-oriented software developer with hands-on experience in building web and Python-based applications. Strong background in developing interactive user interfaces, automation systems, and data-driven solutions such as automated resume screening, fitness tracking, stock portfolio analysis, and AI-based interview preparation tools. Proficient in JavaScript, Python, HTML, CSS, and backend technologies, with a focus on problem-solving, optimization, and scalable application design. Eager to apply technical skills and learn new technologies in a challenging development role.

Education

- **Bachelor of Technology (Computer Science and Engineering)** 2023–2027
Chandigarh Group of Colleges, Jhanjeri
CGPA: 7.5
- **Senior Secondary School Education** 2023
GMSSS-21, Chandigarh
Percentage: 64.4%
- **Secondary School Education** 2021
AKSIPS-45, Chandigarh
Percentage: 87.6%

Projects

AI based Interview Preparation Platform

- Developed an **AI-based interview preparation platform** that personalizes practice sessions using intelligent question generation and feedback.
- Designed features for **mock interviews, real-time answer evaluation, and performance analytics**, helping users improve technical and behavioral responses
- Implemented **adaptive learning logic** to tailor questions based on user skill level, progress, and past performance, ensuring effective preparation.
- **Tech Stack:** Node.js, Express.js, JavaScript, AI/NLP APIs, HTML5, CSS3

Automated Resume Screening System

- Built an **Automated Resume Screening System** to parse resumes and rank candidates based on job requirements using NLP.
- Implemented **skill extraction and similarity matching** to automate candidate shortlisting.
- **Tech Stack:** Python, NLP (spaCy / NLTK), Machine Learning, Flask, HTML, CSS

Fitness Tracker App

- Developed a **Fitness Tracker App** to monitor workouts, daily activity, and health metrics through an intuitive user interface.
- Implemented features for **activity logging, progress tracking, and performance insights** to help users achieve fitness goals.
- **Tech Stack:** HTML5, CSS3, JavaScript

Skills

- **Technical Skills:** Java, HTML, CSS, JavaScript, Python, Node.js (Basics), Express.js (Basics), Git, GitHub, MySQL, MongoDB, C++(basics), AI tools
- **Soft Skills:** Leadership, Problem Solving, Teamwork, Communication, Adaptability, Time Management
- **Core CS Concepts:** Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS, Computer Networks, Computer Organization and Architecture

Achievements / Participation

- Actively participated in **competitive programming contests** on platforms such as **CodeChef, LeetCode, and GeeksforGeeks**, gaining exposure to problem-solving under time constraints.
- Solved **800+ coding problems** across platforms (LeetCode, GeeksforGeeks, CodeChef).
- Maintained a **200+ day coding and GitHub contribution streak**, reflecting consistency and commitment to continuous learning.
- Regularly practiced coding and participated in **knowledge-driven workshops and training programs** to improve technical fundamentals.
- Engaged in multiple hackathons, enhancing problem-solving speed, teamwork, and building practical solutions.
- Collaborated with peers and faculty to support **technical events, placement-oriented activities, and skill development programs**.

Certifications

- **Python Programming Certificate** — Code ITech
- **Web Development Internship Certification** — PrernaGati Technology
- **Java Internship Certification** — PrernaGati Technology
- **Cybersecurity Certification** — Cisco Networking Academy
- **AI Tool Certification** — B10x
- **IBM** skill build Information Technology Fundamentals, Professional Skill, Communication Skill.
